Exhibit A

A. Project Description

Plantation based on Namu Van concept

The objective of the project is to undertake nature-inspired landscaping and eco-restoration by planting and nurturing 50,000 saplings over the land area available at the identified project locations (approximately 8–12 acres) in Faridabad.

Roles and Responsibilities:

Budding Botanicals

- Undertaking prompt and proper plantation of 50000 saplings in Faridabad. A mixed species of indigenous trees, fruiting and non-fruiting, shrubs, Flora, Medicinal, and other evergreen saplings will be planted at the selected sites in order to increase biodiversity.
- BUDDING BOTANICALS will be allowed to prune the trees for safety reasons or to prevent potential damage to surrounding structures but not pruning to the extreme where the tree dies.
- BUDDING BOTANICALS must allow or get requisite permissions for limited access to the plantation site to Indev Consultancy Private Limited and the sponsoring organization/company/individual during the plantation period, in order to supervise and/or participate in the plantation exercise.
- BUDDING BOTANICALS will not be responsible for any damage caused to saplings by natural calamities. Examples: Floods, fire, and vandalism caused due to external elements. However, saplings will not die due to lack of maintenance.
- BUDDING BOTANICALS will not be held responsible for the damage that takes place on the site due to natural disasters and anti-social elements.
- Identify a Single Point of Contact for project coordination and management
- Allot sufficient monetary resources for plantation and maintenance as agreed in the agreement.
- Provide the quarterly Progress reports.
- Provide monthly updates through geo-tagged photographs of the plantation site showcasing the growth.
- Arrange for senior leader visit for showcase initiatives around greening the city spaces.
- Placement of display board at the plantation location in Faridabad.
- The species listed in Annexure 1 will be planted at the Faridabad location.
